

**Sedona Public Library
Summer Reading Program**

**Mad Science
Comes to Library
on June 17th**

**Kids of all ages to touch,
feel, and see what
science is all about!!**

Mad Science, the world's leading provider of hands-on science activities for children is coming to the Sedona Public Library.

On June 17th, kids of all ages will be able to touch, feel, and see what science is really all about. Junior Scientists will learn about water, most common molecules on

our planet and what separates our planet from all others. They will explore the different properties of H₂O and how those properties relate to the world around us. You can be sure water will do more than splash!

Don't miss this wonderful opportunity to discover the magic of science - with the Mad Science experts and showmen.

Mad Science Program for Kids
